INTRODUCTION

Social responsibility allows the company's business interests to be reconciled with the legitimate interests of the different stakeholders that may be affected, and also assumes the impact of the company's activities on the community in general and the environment.

The present Corporate Social Responsibility Policy (hereinafter, "CSR Policy") intends to establish a reference framework, from which any MAPFRE GROUP company can develop and strengthen socially responsible behavior, regardless of the way — conventional and/or digital — the business is carried out and the country it operates in, locally adapting any actions that are necessary for compliance with it.

GOALS

MAPFRE defines its social responsibility as a *"voluntary and strategic commitment that entails attempting to achieve business targets while complying strictly with its legal and contractual obligations, applying criteria of equity and stability to relationships with its stakeholders, thus contributing to meeting the current and future needs of society"*

Promoting Corporate Social Responsibility at MAPFRE must be perceived as a way of:

- Achieving MAPFRE's corporate interest and its strategic goals.
- Managing the company based on the MAPFRE values of solvency, integrity, vocation for service, innovation for leadership and committed team, which must be present in any business project that is carried out.
- Establishing relationships of stability and equality with stakeholders related to the company, mainly those defined in the mission ¹ : shareholders, employees, providers, distributors, clients and society.
- Managing the risks and business opportunities arising from the development of the environment in which MAPFRE does business, assuming the impact it generates on society and the environment, maximizing the positives and minimizing the negatives.
- Transmitting the company's social value in each territory, which reconciles the value of its operational activities with the value of the not-for-profit activities it carries out.

Therefore, and to be able to achieve these goals appropriately, the following general and specific principles of action are hereby established.

¹ MAPFRE MISSION: *"We are a multinational team that strives constantly to improve services and develop the best possible relationship with our clients, distributors, suppliers, shareholders and society in general"*

GENERAL PRINCIPLES OF ACTION

1. **Compliance with International Commitments** relating to Social Responsibility, subscribed to by MAPFRE.

MAPFRE voluntarily adheres to the UN Global Compact, to the United Nations Environment Program Financial Initiative (UNEPFI) and the Principles for Sustainable Insurance, promoted by this initiative.

The voluntary adherence of any country or region to this type of international initiative has an impact on MAPFRE's reputation and entails compliance with the commitments assumed; it must therefore be authorized by the Corporate CSR Committee before its approval by the entity's competent governing bodies.

2. **Compliance with current national and international laws and regulations** in all countries that the Group operates in, adopting complementary international rules and guidelines such as those established by the OECD and International Labor Organization (ILO) agreements, wherever there is not a sufficient or appropriate legal framework.

3. **Maintaining corporate governance practices** based on ethics, business transparency and diversity: respecting the rules of the free market and free competition, and rejecting any illegal or fraudulent practice contrary to the rules of good governance, to MAPFRE corporate policies and rules and to the guidelines of the Code of Ethics and Conduct, in order to accrue business benefits.

MAPFRE has internal mechanisms for preventing, monitoring, reporting and penalizing any practice described in the paragraph above that occurs within the Group.

4. **Communication and dialog with all stakeholders**, based on transparency, truth and commitment, as fundamental pillars for building stable relationships that generate trust.

MAPFRE needs the involvement of its stakeholders, especially those defined in its mission, to achieve its business and social goals and, therefore, it has established specific channels for communication and dialog that also facilitate the company in learning about their needs and expectations.

MAPFRE undertakes to continuously review and adapt these channels, applying new technologies so that they are appropriate and efficient.

Furthermore, MAPFRE has available processes for identifying those matters considered material or relevant to the development of its business activity and for its stakeholders. This material process is structured as a complement to the aforementioned dialog channels.

5. **Commitment to transparency**, as a way of conveying and generating trust and credibility among our stakeholders. This involves:
- a) Disseminating relevant and truthful information regarding the Group's performance and activities, complying with any legal requirements that may exist regarding public information.
 - b) Compiling and publishing financial and non-financial information using some of the internationally accepted methods in the latter case and subjecting it to the internal and external verification processes considered suitable that guarantee its reliability and provide an incentive for continual improvement.
6. **Commitment to Human Rights**. MAPFRE's adherence to the United Nations Global Compact and its 10 principles directly commits us to the respect, defense and protection of Human Rights, contained in the International Bill of Human Rights, the Conventions of the International Labor Organization (ILO), and the Declaration on Fundamental Principles and Rights at Work.

Therefore, in the Human Rights field, MAPFRE undertakes to:

- a) Avoid practices that are discriminatory or damage people's dignity:
 - a. 1. Striving for a decent, safe and healthy working environment, adopting rules and procedures in the area of occupational health and prevention of occupational risks, avoiding any kind of discriminatory attitude, intimidation or violence, in any of their manifestations due to sex, race, creed, religion, age, disability, political beliefs, sexual disposition, nationality, citizenship, marital status or socioeconomic status.
 - a. 2. Rejecting child labor and forced or compulsory labor.
- b) To respect its employees' freedom of union, association and group negotiation and respect the role and responsibilities that apply to the representation of workers in accordance with current legislation.
- c) To provide decent employment:
 - c. 1. MAPFRE pays its employees in a decent manner, adjusted to their skills, responsibilities and duties. This payment is aligned with applicable legislation and with conditions in the market where it operates, which allows them to meet their basic needs and those of their families.
 - c. 2. MAPFRE guarantees the right of its employees to a workday that respects their right to rest and that facilitates flexi-work practices, acknowledging employees' need to balance their work life with other interests and responsibilities.
 - c. 3. MAPFRE, likewise, guarantees people's right to personal data privacy.
- d) To implement due diligence procedures to identify possible situations of greater risk in relation to human rights, and to develop mechanisms for preventing and mitigating these risks in its activities.

To facilitate compliance with these commitments, MAPFRE will create a Guide to the Practical Application of Human Rights, which takes the following action areas into consideration: (a) internal, involving all company management and

employees, (b) external, which involves stakeholders that are related to the company, especially suppliers and contractors.

The Guide will be based on the recommendations in the UN Guiding Principles on Business and Human Rights, the MAPFRE Code of Ethics and Conduct, and corporate policies that are determined in the general and specific principles of this CSR Policy.

7. **Fiscal responsibility.** MAPFRE, aware that the payment of taxes has a direct impact on the financial and social development of the countries it operates in, meets its tax obligations in accordance with the fiscal legislation that exists in those countries, paying the corresponding taxes in accordance with the profit generated in each territory.

In this regard, the following commitments are assumed:

- a) Decisions with tax implications are adopted using a reasonable interpretation of the regulation, considering the business reality that generates the business that is the object of tax.
 - b) The existence of significant tax risks are mitigated, ensuring that the tax is in suitable relation to the business structure in each country, considering the activities performed, and the material and human resources employed in each activity.
 - c) In those jurisdictions where there are collaborative relationship systems between taxpayers and tax authorities, MAPFRE actively participates in an attempt to reduce conflict in the interpretation and application of tax regulations.
8. **Conservation and promotion of the Environment.** MAPFRE conducts its activity with a firm commitment to contribute to sustainability from an environmental perspective, materialized through the integration of the environment into the business, the promotion of environmental responsibility, preservation of biodiversity, prevention of pollution, efficient management of resources and adaptation and mitigation of climate change, in accordance with what is established in the Group's Environment Policy
 9. **Promotion of social responsibility,** with active participation in national and international reference forums and organizations that promote behavior and commitment aligned with the content of this CSR Policy.
